

# Promotions Committee

## Report

### 10/09/2011

1. Still working with Stich-Art to set up a web page to offer shirts, jackets, caps, and other promotional items with the PANWTF Logo, this way we do not have to keep a large inventory of products. As soon as Stich-Art has the site up we can link to it from our website.
2. Custom Laser Engraving will be working with us to provide laser engraved products at wholesale pricing, that our members can order from our web site off of the Promotional Items Page.
3. Trina will be showcasing some of her handmade jewelry also. We will have some of these items available for sale and flyers containing info on our promotional items page at our January meeting.
